

Leuchars Community Council (LCC)

Newsletter (2nd Edition)

We have had very positive feedback from our initial newsletter which was distributed to households in the area. The last LCC meeting held on 5 Sept was extremely well attended by members of the public and two new members were voted onto the Committee.

We extend a warm welcome to Andrew Peel and Aaron Reid. Aaron is the youngest member we have had on the LCC and he shared with us his exciting plans to develop sport in the village with an ambition to start an Amateur Football team – does anyone want to be part of this? If so, please get in touch!

Minutes are available on our website: <http://leuchars.org.uk/community-council.html>

Next Meeting will be held on Tuesday, 3rd October at 19:00 hrs in the Community Centre and everyone is invited to come along.

One of our main aims is to integrate everyone in the local community – we would like you to give us your views and opinions. What do you think works, what would you like to see in the future? We are looking to enhance the Meadow Road Play Park and plant a Fruit Trail. We are working closely with the Primary School as we wish to involve the local children in everything we do. We have a Poly Tunnel at the school which is need of repair – can anyone assist? Our intention is to use this to grow our own flowers and substantially reduce the cost to fill the planters next year.

JUNCTION GARDENS - Veronica Taylor and Steve Davies have volunteered to take the lead on Junction Gardens but as it is a very large area they need as much assistance as possible from the local community. Veronica has had a team of volunteers working extremely hard to finish clearing this area of cut down bushes etc. The intention is to plant lots of wild flowers and poppies to make the area easier to manage however if you have any ideas or suggestions please let us know!

This is a community owned area for the benefit of the entire community and the more hands the better – if you can spare any time, from as little as an hour a month, to assist it would be much appreciated. Contact details overleaf.

The Volunteers

LET'S LIGHT UP LEUCHARS

The success of this project is totally depending on the amount of money that we can raise through fund-raising and grants. We were unsuccessful in our bid to secure funding from the Lottery as they were over-subscribed and awards went to more deserving community projects. This is a big disappointment however we are awaiting the decision on two applications from St Andrews Links Community Trust and Fife Council.
